

Presbytery of the Highlands  
Property and Insurance Team  
2021 Annual Report

- Updated guidelines throughout the everchanging Covid year. We based these on guidelines on those set by the CDC, State of New Jersey, positivity rates and most importantly on what was in the best interest of safety for our people.
- Continued work on the Cemetery Association of the Presbytery. We have been in the process of finding individuals to fill the boards of the cemeteries which oversee the work of each cemetery. This process is almost complete.
- Worked with churches and supported them as they dealt with financial needs, manses, regarding property, renovation and other issues.
- Established the Manse Grant. This came from the sale of the Stillwater Manse. The court stipulation on how the money can be used from this sale is the foundation for how the grants are given. Grants are only given to manses occupied but pastors.
- Continued our call to oversee the management of the insurance of the Presbytery. This past year meant dealing with bringing the Presbytery into compliance on several issues to maintain our maximum coverage on liability with our insurance company Brown and Brown.
- We continued our call to oversee the financial portfolio of the Presbytery and keep it in alignment with our principles and values.

Respectfully submitted,  
Rev. Scott K. Bohr, Co-Moderator
